What is in this file

The plates 3
Every photograph, numbered as in the case file, two to a page.

Nothing in this file was written by BuildMyEvidence. Every entry is the account holder's own words. Every other line is counted from those entries.

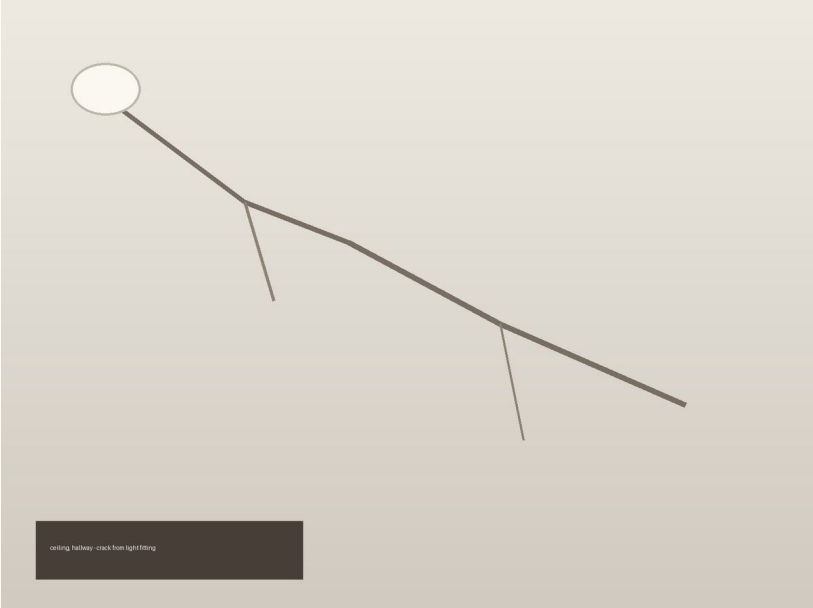

The record in this file was written by the account holder. BuildMyEvidence added the structure, the numbering, the dates and the counts, and wrote none of the content.

Every date shows two things: when the account holder says it happened, and when it was written down. Where those are far apart, the file says so on the entry itself. An entry with no date is held out of the chronology and marked "date not stated" — it is never filed under the day it was uploaded.

This document does not say what happened. It does not characterize anyone, and it does not ask for anything. Those are the account holder's to say, in their own words, somewhere other than here.

JPEG photos are checked for location data on the way in — added by hand or attached to an email. A file that was not checked says so beside it. What was found is shown beside each file.

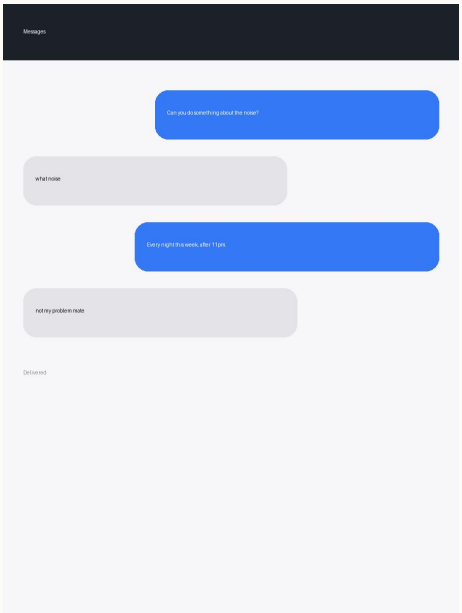

Drawn from the same record as the case file. This document is not a revision of the case file and carries no revision number.
